

Electric Heat Exchangers

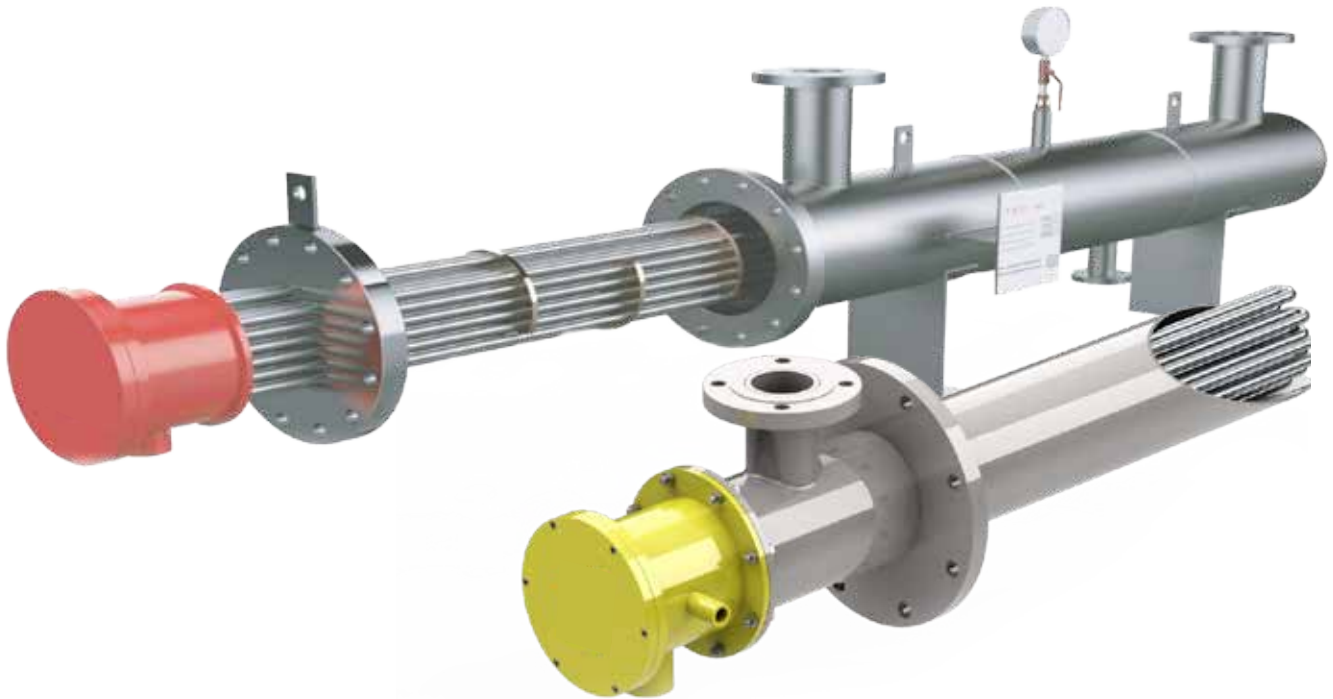

HSCO. can offer you a wide variety of electrical exchangers in special construction fully in accordance with clients specifications and requirements.

Electric circulation heaters and process heating system for heating systems for heating a wide range of industrial liquids and gases.

Mechanical design As Per customer requirement

Pressure Vessels In Which Electric Heater Bundle Are Moonted Are Generally Designed And Constructed As Per Customer Requirement

Bared on Demand

Internal control and over-temperature control with thermostat(s), or RTD temperature sensor(s) thermocouple(s).

Thermal insulation and cladding as option.

Designed for horizontal or vertical position.

Hsco Specialized In Large Heaters For:

- Carbon Steel
- Refinery
- Mild Steel
- Oli & Gas
- Chemical industry
- Pharmaceutical
- Metal industry
- ST Steel
- Paint manufacturers etc.
